

## LPFLEX bags another mega signage

LPFLEX bags another mega signage, graphics & wayfinding project from Mumbai Metropolitan Region Development Authority – Mumbai Metro

**Maharashtra, Mumbai, Apr 8, 2021 ([IssueWire.com](http://IssueWire.com))** - The scope of work includes Design, Manufacture, Supply, Installation, Testing, and Commissioning in the elevated stations of Mumbai Metro as part of Mumbai Metropolitan Region Development Authority's (MMRDA) #MumbaiinMinutes campaign.

LPFLEX, a subsidiary of Maas & Roos, is a [signage consultancy & manufacturer](#) specializing in external & internal branding solutions, wayfinding, and architectural engineering projects with factories in Chennai, Dubai, and Germany. With Hyderabad International Airport Limited (HIAL) project already in execution, Mumbai Metro has made the Q1 of 2021 even sweeter for LPFLEX.

***“This is our second major project of the year after commencement HIAL project which is on track for delivery. Mumbai Metro is another feather in the cap.” Said Amit Kapani, Pradhan Sewak, LPFLEX India.***

MMRDA's expanding rail network in line with their 'Mumbai in Minutes Campaign' ensures government spending on infrastructure. The elevated stations improve connectivity and LPFLEX is one of the key associates in MMRDA's commitment to the 'Make in India' campaign.

**“Being a Mumbaikar all my life, it's a proud moment to be working on this landmark project, which will definitely change the lifeline. Signages play a very vital role for any commuters, hence we will be using our state-of-the-art Chennai plant in coordination with our project team in Mumbai. We are committed to delivering the project in the next 100 days.” added Amit Kapani.**

This expansion of Mumbai Metro will be the lifeline of Mumbai and awarding the contract to LPFLEX (98th year in sign making) ensures that MMRDA is committed to quality, timely delivery, and long-lasting signages.
