United Arab Emirates, Dubai, May 31, 2021 ([IssueWire.com](https://www.issuewire.com)) - Cork Information Technology, a Leading Business Transformation Solutions & Services provider in the Middle East, today announced its partnership with [Deltek](https://www.deltek.com), a leading global provider of Enterprise Resource Planning (ERP) solutions.

As part of the agreement, Cork Information Technology will drive business growth for the Deltek Vantagepoint solution by acquiring new customers and delivering implementations in line with industry best practices. Cork Information Technology will offer the Deltek [Vantagepoint](https://www.deltek.com/vantagepoint) solution to midmarket Architecture & Engineering and Consulting Firms in the Middle East.

Cork Information Technology is known to be a leading Business Transformation Solutions & Services provider in the Middle East and has forged strategic alliances with leading Software Authors to maximize the value of its customers' IT investments.

Hazem Naser, Regional Sales Director at Cork Information Technology, commented, "We have now focused on a global growth strategy. With the aim to further strengthen our market focus, and delivery capabilities, we have also expanded our delivery team. Our extensive experience with ERP from both an IT and business perspective will help drive customer-driven projects focused on successful implementation and digitally transform their business processes. We're excited to partner

with Deltek to offer our customers and prospects a business transformation solution that will help them take advantage of business growth opportunities in the Middle East region.”

Elise Carbone, Director – Global Partners and Alliances EMEA for Deltek said. “Given the increased momentum in the professional services industry in the Middle East, we look forward to partnering with Cork Information Technology to provide Deltek Vantagepoint to companies that are looking to grow and automate their business processes through the use of technology. Deltek Vantagepoint is a perfect fit for Architecture & Engineering and Consulting Firms in the Middle East looking to drive business growth.”
