

David W. Strobel, MD, a Family Physician with Pipe Trades Family Health & Wellness Center

Get to know Family Physician Dr. David W. Strobel, who serves patients in Eagan, Minnesota.

New York, New York City, May 3, 2021 ([Issuewire.com](https://www.issuewire.com)) - An established family physician, Dr. Strobel sees patients from newborn to elderly at Pipe Trades Family Health & Wellness Center in Eagan, Minnesota. His special interests include complex case assessment and management, geriatrics, endocrinology, nephrology, cardiology, pulmonology, rheumatology, psychiatry, and advanced care management.

Serving the Pipe Trades Industry in Minnesota, Pipe Trades Family Health & Wellness Center offers truly a new way to deliver and pay for medical care, with a focus on wellness and prevention. Its ultimate mission is to improve the health & lives of members.

“My current position with the Pipe Trades system is very unique. The paradigm of care strongly emphasizes preventive health and provides me the opportunity to spend significant time with patients to address multiple lifestyle concerns, many of which are impossible to know in the context of a typical 10-15 minute visit. The model of care at this system is innovative and visionary, largely attributable to Mr. James Hynes, an industry leader who has properly assessed the brokenness of the usual medical system and envisioned a radically different one. I feel like I am given the opportunity to practice real medicine again” expressed the doctor.

Graduating with his medical degree from the University of Minnesota Medical School in 1989, Dr. Strobel went on to perform his residency in family medicine at St. Luke’s Regional Medical Center.

Possessing over three decades of clinical excellence, he is board-certified in family medicine by the American Board of Family Medicine (ABFM). The ABFM is a non-profit, independent medical association of American physicians who practice in family medicine and its sub-specialties.

Among his most notable achievements, Dr. Strobel has conducted multiple quality improvement projects over the last two decades.

Family medicine is a medical specialty devoted to comprehensive health care for people of all ages. The specialist is called a family physician or family doctor. A family physician is often the first person a patient sees when seeking healthcare services. They examine and treat patients with a wide range of conditions and refer those with serious ailments to a specialist or appropriate facility.
