

Kavitha T. Ram, MD, MS, an Obstetrician-Gynecologist with Jamaica Hospital Medical Center

Get to know Obstetrician-Gynecologist Dr. Kavitha T. Ram, who serves patients in New York, New York.

New York, New York City, May 27, 2021 ([Issuewire.com](https://www.issuewire.com)) - Dr. Ram is a highly-trained obstetrician-gynecologist serving as the Director of the Obstetrics and Gynecology Residency Program at Jamaica Hospital Medical Center. Her clinical interests include fetal diagnosis and perinatal hospice.

Jamaica Hospital Medical Center is a full-service medical hospital and emergency facility in the Jamaica neighborhood of Queens, New York City, on the service road of the Van Wyck Expressway at Jamaica Avenue. Its mission is “To serve our patients and the community in a way that is second to none.”

Academically, Dr. Ram attended Bryn Mawr College, where she majored in Physics and minored in English Literature. She completed her medical school and residency training in obstetrics and gynecology at SUNY Buffalo.

For several years, she practiced as an academic generalist in the New York City metropolitan area, during which time she received a Master’s degree in Clinical Research Training from Albert Einstein College of Medicine. She continued her training at Albert Einstein College of Medicine, completing a subspecialty fellowship in maternal-fetal medicine.

A Fellow of the American College of Obstetricians and Gynecologists, Dr. Ram is board-certified in obstetrics and gynecology & maternal-fetal medicine by the American Board of Obstetrics and Gynecology (ABOG). The mission of the ABOG is to define specialty standards, certify obstetricians and gynecologists, and facilitate continuous learning to advance knowledge, practice, and professionalism in women’s health.

Obstetrics and gynecology (OB-GYN) is the medical specialty that encompasses the two subspecialties of obstetrics (covering pregnancy, childbirth, and the postpartum period) and gynecology (covering the health of the female reproductive system – vagina, uterus, ovaries, and breasts). An obstetrician-gynecologist specializes in the diagnosis, treatment, and prevention of diseases and disorders that affect women, such as breast cancer, cervical cancer, and menopause. Additionally, they work with expecting mothers throughout their pregnancies, during childbirth, and postpartum.

With a passion for education, Dr. Ram has received numerous regional and national teaching awards throughout her career.
