His research experience includes 2009 Practitioner- Investigator, Dental Practice-Based Research Network* Study 6, Questionable Occlusal Carious Lesions. University of Florida, Florida/Georgia Region.

Dentistry, also known as Dental and Oral Medicine, is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity. Dentists diagnose and treat dental issues and help patients develop better oral hygiene regimens. They clean teeth, correct bite issues, perform surgeries and extractions and perform other duties to ensure that the teeth and mouth are healthy.

While Dr. Rosenstein's accomplishments in dentistry are a source of pride and fulfillment for him, his greatest joys come from his wife of 40 years and his wonderful children. Both his children developed his love of learning and have achieved at a very high level academically.

Outside of dentistry, he enjoys spending time with his family, playing golf, reading, and listening to the music of all kinds. He and his wife enjoy art festivals, movies, live plays, and ballet. They are also very committed to their three dogs: Sasha and Emma are Soft-coated Wheaten Terrier & Hugse is an Italian Greyhound.
