

The most accurate history of Goju Ryu Karate ever presented

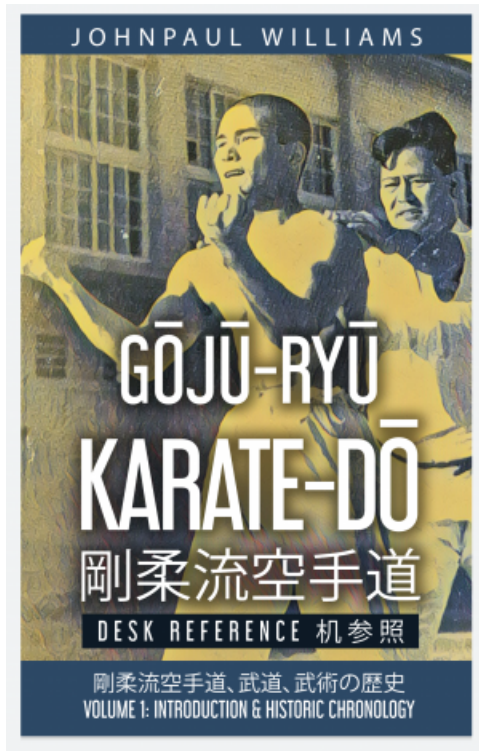

Goju Ryu Karate-do Desk Reference Historic Chronology

California, Los Gatos, May 25, 2021 (Issuewire.com) - Finally, a historic chronology of Karate-do and Goju-Ryu from Okinawa. The text includes many previously unpublished photographs and recently uncovered data to clarify the path of karate before the Olympics arrive (which will be featuring the debut of karate at the Tokyo Budokan in Japan).

The author, Johnpaul Williams, meticulously recorded the events precluding WW2 and the Dai Nippon Butokukai (DNBK), all the way to future events projected for 2022. A masterful manuscript delivered with the obvious and specific intent for use as a desk reference for every martial artist and Japanese dojo of any style.

Never before have the events of karate been presented in a manner of clear understanding and told in the order of occurrence without hypothetical or editorial commentary. Enabled by the technology of the 21st century. Truly, a text for the masses and every karate nerd.
