

Kuldip S. Deogun, MD, an Interventional Pain Management Physician with Chronic Pain Institute

Get to know Interventional Pain Management Physician Dr. Kuldip S. Deogun, who serves patients in Sterling Heights, Michigan.

New York, New York City, Jun 3, 2021 ([IssueWire.com](https://www.issuewire.com)) - An experienced interventional pain management physician, Dr. Deogun is committed to providing a comprehensive approach to treating a wide variety of painful conditions. He is the Owner & Operator of the Chronic Pain Institute in Sterling Heights, Michigan.

“We know that chronic pain is a complex challenge that can affect many areas of your life. Our goal is to relieve, reduce or manage pain to improve a patient’s life and allow them to return to a more active and productive lifestyle. The Chronic Pain Institute treats all patients with the utmost of respect and concern while offering honest and reliable evaluations and care” as stated on their website.

Back in the early days of his academic career, Dr. Deogun graduated with his medical degree from Government Medical College, Patiala in India. After relocating to the United States, he went on to perform his internship at Nassau University Medical Center. This was followed by residencies in anesthesiology at the University of Michigan Hospitals and Health Centers and Cleveland Clinic Foundation.

Priding himself on providing the best medical attention, he is board-certified in anesthesiology and interventional pain management by the American Board of Anesthesiology (ABA). As the certifying body for anesthesiologists since 1938, the ABA is committed to partnering with physicians to advance the lifelong learning and exceptional patient care. Its mission is to advance the highest standards of the practice of anesthesiology.

Having been a practicing pain specialist since 1986, Dr. Deogun is an expert in the diagnosis and treatment of both chronic pain and acute pain disorders. His main goal is to decrease pain and increase function. In private practice, his focus has been on careful evaluation and diagnosis of each patient, employing a multidisciplinary approach to solving painful conditions. He will use such techniques as neuromodulation, including spinal cord stimulators and pain pumps, nerve ablation, and therapeutic injections to provide pain relief.

Interventional pain management or interventional pain medicine is a medical subspecialty that treats pain with invasive interventions such as facet joint injections, nerve blocks, neuroaugmentation, vertebroplasty, kyphoplasty, nucleoplasty, endoscopic discectomy, and implantable drug delivery system. An interventional pain management physician focuses on the evaluation, treatment, and prevention of pain.

In honor of his clinical expertise, Dr. Deogun is the recipient of the Patients' Choice Award (2018).

On a more personal note, he speaks both English and Hindi.
