

## Success is more than Just a Story, Learn to live your dreams with Kaki Singer, an Indian Singer-Songwriter

From Udaipur, India, Kaki Singer is the first artist from Udaipur to be verified on IMDb and has given back to back extraordinarily remarkable tracks in different languages while experimenting with different genres.

**Rajasthan, Udaipur, Jun 13, 2021 ([Issuewire.com](http://Issuewire.com))** - What does one do at the age of eighteen? Many of you might have planned or dreamt of a career, many must still be figuring out their life and career plans but not Kaki, Indian singer Kaki has lived some lives. Born as Hema Dangi, at 18, she has given

back to back extraordinarily remarkable tracks in different languages while experimenting with different genres. She has found her purpose, her passion, while collaborating with artists all over the world, she has proved her excellence not just as a vocalist but also as a songwriter.

We all have different tastes in music, some like Ariana, some of us listen to Whitney Houston, some prefer Drake over everything and some of us even fell in love with old Bollywood classics but what if someone tells you that you can get all that diversity in one. From Indian classical to Bollywood to English Pop/Hip-Hip/Trap Kaki has done everything, her most loved tracks are in fact the fusions between all these languages and genres. Her track 'Arabian Nights' and 'Sargam' fall into this category which also happens to be her most appreciated tracks by the audience as well as other artists.

With that much excellence there must be a back story for her accomplishments, maybe even some musical heritage in her genes, if you're guessing that I'm sorry to tell you but you're wrong, she seems to never have anyone in her family near singing. Lived most of her life in the lake city Udaipur, she's the first artist from Udaipur to be recognized and verified by IMDb.

She is said to be learning Hindustani Classical Music since the age of nine and has won various national awards at reputable competitions like Prayag Sangeet Samiti(Allahabad)and Ninaad Mohatsav(Agra), then she also started singing devotional music at local shows.

But the question is how a Hindustani Classical singer stepped into the world of Western Music. This question was answered by Kaki in her feature with Savaal Magazine as to be quoted -

"In 2018, she joined an artists' platform named Talentsofworld, which unites artists from around the world. This is when she began writing original music, going on to release six singles in collaboration with artists from the UK, Canada, and Persia."

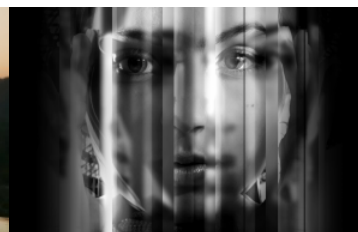

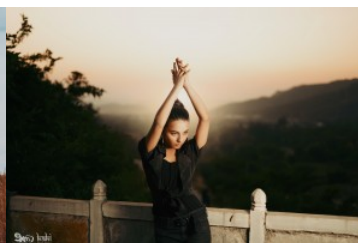

While studying music passionately at the Maharana Kumbha Kala Kendra in her city, she soon found her way into English music with the support of Talentsofworld which is an online platform for artists for artist's promotion, management, and support. It includes its own broadcasting platform 9xm.tv where Kaki releases all of her music videos and audio tracks. Talentsofworld also manages Kaki's production and management.

Soon after joining Talentsofworld Kaki started releasing her original compositions and has not stopped ever since.

Her most recent singles include 'Lightswitch' with more than 2 million views, written by composer David Thomas Tough and Jordan Kyle Webb, the release of this song was featured in many well-known news platforms as '2 News', 'US Daily Ledger', 'Fox 40', 'EIN Presswire' and her latest single 'Arabian Nights' with DZIA, Audiotrackerz, and Ssameer.

But why are we discussing this? Is this an appreciation post? Or is this supposed to make you insecure by her accomplishments?

No, it's not any of those, let's just say it is a discussion about how one can achieve what people only dream of by right choices, determination, and right guidance.
