**Victoria, Melbourne, Jun 11, 2021 ([IssueWire.com](https://www.issuewire.com))** - Award-winning author, Wisdom V Mupudzi made his debut on American Radio on the America Tonight radio show. A radio show hosted by the amazing Kate Delaney, a radio show that reaches millions weekly. Kate Delaney has interviewed many celebrities including the current President of the United States, Joe Biden, Taylor Swift, Sandra Bullock just to mention a few.

It was truly a delight and an honour for Wisdom to be a guest on the show and share some key nuggets on relationships. He has been passionate about relationships for years, and this has been one of the drivers that led him to write the book, *Uncommon Destiny Uncommon Partner*, which went on to win a Silver Award in the E Lit Awards which are hosted by the Jenkins Group, a company based in the Michigan United States, with over 25 years in the publishing and service industry!

One of the things that Wisdom encourages people who are currently single to do is to both enjoy life and also do the “work”. For those who are looking to get married, he encourages them to deal with Bloodline patterns and also personal patterns and cycles. As Wisdom explained in the interview, many people are dealing with personal cycles, that are not dealt with, so dealing with them and breaking through, gives their next relationships a better chance.

After serving the ministry of prayer in church for many years, he is fully aware that many married couples are dealing with challenges that they could have handled before marriage. In the book, *Uncommon Destiny Uncommon Partner*, Wisdom addresses many of the key fundamentals that many people need to address, and by addressing those things, they can look forward to better and more enjoyable relationships. Based on his experiences and also having spoken to many couples, Wisdom says that many couples that don’t understand those key fundamentals are going through certain things and challenges unnecessarily.

‘By preparing spiritually, emotionally, and psychologically, many couples can create a foundation that fosters the longevity of their relationships. Many couples have relationships full of drama, sometimes it’s because one of them or both of them, may not have done the “work” etc. In saying that, every day is a chance to begin anew. This means one can start working on those key areas addressed in *Uncommon Destiny Uncommon Partner* and start moving towards a relationship that they desire’, Wisdom explains.”
