Conclusion (Based On Our Experiences)

So we (MSHiv and Flora) went on and tried the Wealth Switch to see its effectiveness at first we were disappointed as we did not fetch any result until our first week but then something happened we used it for the 8th day and the next day we made a sale of \$200 from one of our side hustle.

We were amazed to see it as we did not do anything significant other than our usual work every day. Maybe we got the results because we worked on it and we believe you will too if you can work on something for an extended period of time.

And from this, we came to a conclusion that Wealth Switch will switch your mindset for success or money but it is NO way a replacement to work involved in success.

Hence, all we will say is

if you have a poor mindset and nothing seems to be working for you.

Remember you'll have to work to make the wealth switch work for you and if you think this is the replacement to work then don't buy it.
