Munich, Grafing bei Munchen, Jul 26, 2021 ([IssueWire.com](http://www.IssueWire.com)) - Born in Germany, Athanasio Celia is an art expert, painter, and author who became internationally acknowledged in 2007 for his key role in the return of one of the most important ancient treasures- a golden Greek crown. His works are elaborated with fire that makes them immune to falsification and hence, is termed as safe art. Apart from his academic excellence, the art historian established himself as an art expert because of his ownership of an archive of valuable manuscripts.

After years of examining sketches, oil paintings, and artifacts, the author has launched his new book titled 'God's letters: 132 Capital Letters came during a Vision in 2001' that claims to prove God's New Revelation. The book is based on a man who in 2001 had recorded a vision that contained 132 capital letters of the Greek alphabet. The letters created a quadrangular shape of 11 and 12. Studies revealed that the text is readable in 115 different ways as per the ancient Greek language and simultaneously it encloses crucial depictions and symbols. The letters could be deciphered mathematically.

The complete process of deciphering the depiction reflects an unbreakable geometrical, mathematical, and theological organization which in the end highlights 10 big revealing texts. The book 'God's letters: 132 Capital Letters came during a Vision in 2001' is a vision text which shows a principal symbol of the crucifix of Jesus Christ and is claimed to be God's Contemporary Revelation.

Moreover, the German edition of the book that is Der Logos- Der Gottes Beweis is published by the publisher who also publishes the famous 'German biographical encyclopedia covering persons related to the history of the Church' which makes the vision penned by Athanasio Celia broadly accepted. The edition is popular amongst the German Christian communities who sell it through their bookstores. Additionally, the book is also registered in the Index Theologicus of the University of Tübingen. It is now available on Amazon with a Kindle edition. For more details follow the author on [Facebook](#) and [Twitter](#).
