

India's youngest Founder&CEO Soumik saha and team Releases India's First Rider app

It will be the First india's app For Rider community

West bengal, kolkata, Jul 10, 2021 (Issuewire.com) - GeoFly Rider is an unbelievable App For the young generation Rider soumik saha Founder &CEO of GeoFly Rider recently tease about it and he said it will be the best Rider Friendly application of India and the outer country also.

The Highlight of the application in addition to the next level Fun and riding application that has not only

Geo location but also games and reward points will be there for the Rider that will attract the users especially a lot.

Though soumik still not releases the full features of the application it will be big suspense and revolution to the Rider community.

After the ban of Chinese games and apps, Indian mobile apps startups have risen to the occasion in providing viable options to the Indian mobile user. A large number of business applications have sprung up with the smartphone industry boom.

soumik and his team also aim to provide top-quality and engaging apps to its user by using the latest technology and the best talent when it comes to the Rider community.

The app is engaging and keeps you on the edge. The excellent artwork and gaming effect adds to the entire experience. The app is very engaging for all types of Riders, in the month of September it will go to the play store and app store soumik said.
