

# MacSonik has Developed an Exclusive Gmail Backup Solution for Mac Users

**MacSonik Gmail Backup Tool is an efficient solution to create & save the backup of Gmail account data of Mac users.**

**California, San Jose, Jul 26, 2021 ([IssueWire.com](http://IssueWire.com))** - [MacSonik Software](#) develops solutions for Mac users to backup emails, migrate mailboxes, cloud backup & cloud migration, and data recovery. Its software assists users in safe and quick migration of emails from Gmail, Outlook, Yahoo Mail, IMAP Server, Thunderbird, Office 365, etc. MacSonik Gmail Backup Tool takes backup of Gmail emails of any individuals, enterprises, and organizations.

## Efficiently Backup Gmail Emails on macOS

Many people use Gmail as a primary email service provider to communicate formally & informally. Gmail Email Backup is a need for users, institutions, legal bodies, organizations, governments, etc. for data safety. An email backup restricts any possible chance of a data breach or cyber threats. Using a professional Gmail backup solution is the best way to save Gmail mailboxes, contacts, calendars, and other Gmail account data.

## Gmail Backup Tool for Mac

MacSonik Gmail Backup Tool is a perfect solution to create a backup of Gmail emails. This Mac-based Gmail utility saves a backup of your Gmail emails with all its mail attachments. It performs batch migration of multiple emails in one attempt. Also, it saves all your Gmail account data such as contacts, calendars, notes, attachments, etc. It has some amazing features that make it different from its competitors.

- Save Gmail emails into **PDF, EML, PST, MBOX, HTML, EMLX, MHTML, MSG, CSV, TXT, DOC**, etc.
- Migrates Gmail mailboxes to **Outlook, Yahoo Mail, Apple Mail, iCloud, IMAP Server, Office 365, AOL, Live Exchange Server**, etc.
- Have a set schedule backup feature to pick a time for Gmail Email backup.
- Able to remove duplicate emails from Gmail account.
- Option to save Email PDF attachments separately.
