

Monica R. Shah, MD, a Neonatologist with St. David's Medical Center

Get to know Neonatologist Dr. Monica R. Shah, who serves patients in Austin, Texas.

New York, New York City, Jul 27, 2021 ([Issuewire.com](https://www.issuewire.com)) - Dr. Shah is a fellowship-trained neonatologist caring for critically ill newborns and premature infants. She can be found on staff at St. David's Medical Center.

Located in Central Austin, St. David's Medical Center includes a 426-bed acute care hospital and a

64-bed rehabilitation hospital providing comprehensive inpatient and outpatient care. It is home to the internationally renowned Texas Cardiac Arrhythmia Institute and St. David's Neuroscience & Spine Institute. The hospital provides a complete range of women's services, including its acclaimed maternity unit, maternal-fetal medicine, a high-risk maternal and neonatal transport team, the region's largest Level IV Neonatal Intensive Care Unit and The Breast Center; complex surgical services; a comprehensive Bariatric Surgery Center; and a 24-hour emergency department.

The doctor's acclaimed career in medicine began after she earned her medical degree from the Joe R. and Teresa Lozano Long School of Medicine in 2005. She then went on to perform her residency in pediatrics at NYU Langone Medical Center, and her fellowship in neonatal-perinatal medicine at the McGaw Medical Center of Northwestern University.

With years of experience, Dr. Shah is board-certified in both pediatrics and neonatal-perinatal medicine by the American Board of Pediatrics (ABP). The ABP exists to promote excellence in medical care for children and adolescents. Certification represents dedication by pediatricians, pediatric subspecialists, and pediatric trainees to the highest level of professionalism in inpatient care.

Neonatology is a subspecialty of pediatrics that consists of the medical care of newborn infants, especially the ill, or premature newborns. It is a hospital-based specialty and is practiced in neonatal intensive care units. Neonatologists generally diagnose and treat newborns with conditions such as breathing disorders, infections, and birth defects, as well as coordinating care and medically managing newborns born prematurely, critically ill, or in need of surgery.
