

Tenera Palm Oil planting and processing

Palm Oil

Edo, Benin, Jul 25, 2021 ([IssueWire.com](http://www.IssueWire.com)) - Palm Oil

How Profitable Is Palm Oil Business? The **palm oil yield per hectare is estimated at 8 tons per year at most**. Additionally, the profit farmers make per hectare is around 3.4tons per year.

Tenera (Thin Shell)

The palm oil business is one of the lucrative businesses in Nigeria because of its diverse usefulness and the huge profit involved. In Nigeria, palm oil is one of the essential needs for cooking most meals. The interesting part of this business is that every part of the palm tree (fruits, leaves, trunks, and sap) is used for different things.

Planting/Buy/Sell/Processing of Palm Oil plants. Agricultural farming is important to our society.
