A dermatologist is a doctor who has extensive training and knowledge of the skin, scalp, hair, and nails and treats conditions that affect those areas. These doctors will evaluate any abnormality, blemish, or lesion on the skin in order to determine the cause and will determine a course of treatment. Dermatologists provide patients with full-body scans in order to identify any signs that are indicative of an illness that requires treatment, such as skin cancer. These specialists may also provide cosmetic services, such as mole removal, scar diminishing treatments, and even botox and facelifts.
