

Australia's Designer Shed Provides The Customised Sheds For Your Exact Measurements

New South Wales, Sydney, Aug 25, 2021 ([IssueWire.com](http://www.IssueWire.com)) - Designer Sheds prepares steel sheds considering the exact dimensions and delivers it onsite at a cost less than a stock-standard shed. They create sheds based on the reliable core design, then customise it according to your needs for no extra cost. You can decide up to 24 metres width, 6 metres height, and length what you want in 3 types of steel cladding, 22 colours, 5 roof pitches, and 2 gutter profiles. They also provide customised doors and

windows.

For the last 22 years, they have been developing smart shed design and manufacturing software and processes that help to design custom sheds exact to the nearest millimetre. They design steel sheds for:

- Garages
- Workshops
- Storage Sheds
- Carports
- Industrial Sheds
- Special Use
- Commercial Sheds
- Farm Sheds
- Barn Sheds
- Equine Sheds
- Garden Sheds
- Caravan Sheds

What Did Their Customers Say?

Karen from Jetty Boating – NSW said, “I’m now the proud owner of a truly purpose-built shed - *“We got quotes from other places, but we chose Designer Sheds in the end because only they could give us a truly ‘purpose-built shed. We’ve now got a separate boat showroom and workshop with a driveway through the middle so our customers can drive up in their trailer, load and unload, all while being undercover!”*

Another customer, Gerald Troy, from NSW commented, I waited and waited on other shed companies for weeks to give me engineers detailed plans- *“ But with Designer Sheds, I paid my deposit, and within a matter of minutes, I had all the engineers’ details in my hands, ready to go to council. I didn’t even need their manual, and I put it up in two days myself, finished and everything. Even the guy from the Council commented when he visited how nice it looked.”*

Unique Triple Guarantee For Every Shed

The Designer Shed gives you a relaxing breath by offering 3 unique guarantees for:

- **Price-** The quoted price is fixed after the order confirmation
- **Shed-** The shed kit will match the approved design
- **Supply-** Every component of the shed will be delivered as soon as possible

The Ultimate Shed Design Guide

For the people planning any shed project, they offer free access to get proven shed design tips to save your time, money, and stress. It is available for free download on their website.

Rick Lomas said, “ One of my cars is an old Pontiac (very wide), and the other one is a normal sedan.

So rather than a standard double car garage, what I actually needed was one wide shed bay and one narrower bay. Your Guide showed me how to make that happen.”

Get Free Delivery Across Australia

They manufacture custom sheds in 27 locations across Australia- so they can deliver your shed right to your site in the form of a kit. Additionally, they offer free delivery in almost every part of the country. After you get your kit, all you need to do is hire a builder to erect your shed.
