Delivering Industry-Leading Integration Solutions:

We help you solve complex integration problems by leveraging our MuleSoft expertise.

Consultancy

Our MuleSoft consultants take an overall view of your application landscape and provide you with a fully scoped and budgeted solution architecture blueprint.

App Delivery

Our cost-effective delivery model leverages our onshore/offshore capabilities to ensure each implementation is tailored to meet the needs of our customers.

Application Support

For complete peace of mind, we offer a 24x7x365 or tailored support service package that proactively monitors your MuleSoft integration architecture.

Managed Services

Whether you are undertaking a transformation programmer, or simply want to accelerate project delivery, we provide you with expert resources.

How We Can Work Together:

Offsite

A project is carried out at Tkxel's software development center from concept to a fully functional.

Onsite

The project is developed on the client's site. Shortlisted candidates travel for the required period.

Offsite + Onsite

A part of the team is located at your site to address critical issues and interacts directly with an offshore development team
