

Indian Scientist Dr Hemachandran Ravikumar bags Excellency of Research Award 2021

Dr Hemachandran Ravikumar has been awarded the INSC Excellency of Research Award 2021 for his Contribution to the field of Research & Development.

Tamil Nadu, Chennai, Aug 29, 2021 (Issuewire.com) - A release issued by the **Institute of Scholars** regarding the **Excellency of Research Award 2021** said the Paper Title: Summarized

Facts, Managements and Treatment Pattern for COVID -19 was selected at the recommendation of the jury on the basis of majority vote. This award is also awarded for his works published between January 1, 2017, and December 31, 2020.

The award will comprise a casket containing an engraved copper plaque, Certificate of Merit, and InSc Professional Membership. “The awards will be presented to the recipient virtually due to the raise in Covid-19 cases across the nation.

Every year InSc issues the Research Excellence Award / Excellence of Research Award to encourage researchers by issuing awards to his/her research paper published in any of the reputed International Journals or conferences. More than 100 research papers from all over India will be selected of which the above title will be awarded.

The Award recipient details along with photos will be published in the InSc Yearbook which will be circulated among more than 15,000 subscribers and a soft copy of the yearbook will be given. He/She will be considered as a reviewer for our InSc Journals and a certificate will be issued for the same. His/Her details will be displayed on our awards department page www.insc.in/awards. He/She may be invited as a session chair/resource person for InSc events in his/her area of expertise.
