www.norton.com/setup

Florida, Miami, Aug 10, 2021 ([Issuewire.com](https://www.issuewire.com)) - Norton provides a robust layer of protection to computers, smartphones, laptops, and other devices from cyber-attacks and viruses. If you want this protection for your devices, download, install, and activate Norton by going to norton.com/setup.

How to Create a Norton User Account

You can use these steps to create a Norton user account:

- Open your web browser and click on the URL: www.norton.com/setup.
- Click on Create a new account.
- Enter your email id.
- Enter your email id again in the Confirm email address box.
- After that, type your password.
- Enter your first name and last name in the given boxes.
- Choose your country code and enter your phone number to enable two-factor authentication to keep your Norton account secure.
- Choose your region or country in the Region drop-down list.
- Tap Create Account.

How to Download and Install Norton

Get help from these steps to download and install Norton on your device:

- First of all, go to norton.com/setup and **sign in** to your Norton user account.
- Enter your email id and password for Norton and tap **Sign-in**.
- Tap **Forgot Password** if you need to recover your lost or forgotten password.
- Tap **Download** in the **My Norton portal**.
- Tap on **Get it from Microsoft** if you are installing Norton on Windows 10 in S mode.
- Tap **Agree & Download** in the **Get Started** section.
- Select the Norton subscription plan to download on your mobile device and tap **Next**.

To install Norton on Windows

- run the Norton installer from your web browser.
- Tap **CTRL+J** keys simultaneously to open the **Downloads** folder.
- Now, **double-click** the downloaded file.
- Tap **Continue** when the **User Account Control** window opens.
- Follow the further installation steps.

To install on a Mac device

- Tap **Agree & Install**.
- When Norton asks you to join the Norton Community Watch, tap **Join Now** or **Maybe Later** based on your preferences.
- When Norton asks you to enter your account password, then type it and tap **Install Helper**.
- Tap **Restart** and then tap **Open Preferences** in the Norton installation window.
- Tap **Open Security Preferences** when **System Extension Blocked** alert appears on the screen.
- Tap on the lock icon located at the bottom of the **Security and Privacy** tab.
- Tap **Unlock** after typing your administrator account password.
- Tap **Allow** to get the Norton messages and then click **Continue**.
- Alternatively, Tap **Allow**, choose your Norton product and then tap **Ok** when the message **Some system software was blocked from loading**.
- Tap **Continue** and then tap **Allow** in the Norton installation window.
- Tap **Open Preferences** and then enable the **Norton System Extension**.
- At last, click **Complete**.

To install on an Android device

- Tap on **Google Play Store**.
- Then, tap **Install**, and once the installation is completed, tap **Open**.
- Read the **License & Services Agreement**, accept it.
- Acknowledge **Global Privacy Statement** and then click **Continue**.
- After entering your email id and password, tap **Sign-in**.

To install Norton on your iPhone or iPad

- Go to **Download Norton from App Store**.
- Click **Download on the App Store**.

- It will direct users to App Store.
- Click on **Install** on iPad if using an iPad.
- Click on **Get** and then **click Install**.
- Click **Done** and the download completes; click **Open**.
- Read the **license & services** agreement, accept it.
- Acknowledge the **Global Privacy Statement** of Norton, click **Continue**, and then **Sign-in**.

How to Activate Norton Antivirus Software

Here are the required steps for activating Norton:

- Click on your Norton product & go to the main window.
- Tap Activate Now and then tap Next.
- Enter the **PIN** in the **MY Service PIN** field.
- Click Activate and then enter your computer name.
- Now, click **Activate** and then tap Finish.

How to Activate Norton Antivirus Software with a Product Key

Here are the Norton activation steps with a product key:

- Launch Norton and then tap Open in the My Norton window next to **Device Security**.
- Tap Activate Now on the Norton main screen.
- Enter the activation code you received from Norton and then click **Next**.

FAQs

How do I find my Norton activation key?

You can find your activation key based on how you have obtained your Norton subscription plan. For example, visit norton.com/setup, sign in to your user account, & tap the **My Subscription** page. Here, you have to click on **Norton Utilities Premium** or **Norton Utilities Ultimate**. Now, note down your activation key.

What is the use of Norton sign-in?

When you sign in to your Norton account, it helps you manage, renew and extend your Norton subscriptions to Mac, Android, and other devices. To sign in to your Norton account, visit norton.com/setup.

How can I register to Norton's account?

Visit norton.com/setup, click on **MY Account**, tap **Sign-in**. Click on Create a new account if you don't have your account. Enter your email id and password, and then tap **Sign-in**.
