

The Notorious Pedophile Mr Rod from Blanche Charles Elementary School Is Now Dead

California, Calexico, Aug 10, 2021 (IssueWire.com) - Pedophiles are a curse in society, and if they are from a school, it becomes even scarier. A notorious pedophile, names Mr.Rodriguez, also known as Mr. Rod was the name of trauma for children. The worst part was he is from an institution where we parents send our children to get educated. Yes, the culprit was from [Blanche Charles Elementary School](#), and he was there on campus for several years. Reportedly, the lack of security has made the school an ideal place for criminals and pedophiles. He has now passed away or he would be in handcuffs for life.

Several children reported that Mr. Rod from Calexico, California used to take all students out of the classroom at Blanche Charles, and on the birthday of any kids, turned off the lights, cornered them, and molested them on campus (inside the classroom).

Though in the daylight, he was quite popular as a cool dude because of his body and friendly behavior, he was a different person in the dark. He was a child molester and a pedophile.

A police report has been filed and they say there's nothing they can do.

The initial steps Blanche Charles Elementary School Need to take to get back its pride:

Blanche Charles needs to take special care of the safety and security of the school. The school should also take some safety measures for the security and future of the children. They should conduct drug tests weekly, install video cameras, and the most important thing, not to hire pedophiles. With they continue with the low security, all parents might switch their children to a better elementary school.

If a pedophile is there for such a long time, it won't be surprising if there are one or more pedophiles there or if child molesting happens again.

If you are a previous student and would like to come forward please contact the Calexico Police Department. The official email to contact us is blanchecharles@protonmail.com. To write to us, you don't need to disclose your name. You can create an anonymous email from ProtonMail.com for free if you would like to remain private.
