

Ariel Grajales-Cruz, MD, a Hematologist-Oncologist with Moffitt Department of Malignant Hematology and Cellular Therapy

Get to know Hematologist-Oncologist Dr. Ariel Grajales-Cruz, who serves patients in Florida.

New York, New York City, Sep 16, 2021 (Issuewire.com) - A seasoned hematologist-oncologist, Dr.

Grajales-Cruz is affiliated with the Moffitt Department of Malignant Hematology and Cellular Therapy at Memorial Healthcare System. His clinical and research interests include lymphomas and plasma cell dyscrasias, such as multiple myeloma, monoclonal gammopathy of undetermined significance, plasmacytoma, primary systemic amyloidosis, and Waldenstrom macroglobulinemia.

Since its inception in 1953, Memorial Healthcare System has been a leader in providing high-quality healthcare services to South Florida residents. Moving health forward to meet the needs of the community, it is one of the largest public healthcare systems in the nation and highly regarded for its exceptional patient- and family-centered care that creates the Memorial experience. Its patient, physician, and employee satisfaction rates are some of the most admired in the country, and the system is recognized as a national leader in quality healthcare.

Academically, Dr. Grajales-Cruz received his medical degree from Universidad Central del Caribe in Bayamon, Puerto Rico. He completed his residency in internal medicine at the Veterans Administration Caribbean Healthcare System, where he also served as Chief Resident. Most recently, he completed a fellowship in hematology and medical oncology at the Moffitt Cancer Center/University of South Florida.

Following his training, the doctor attained board certification in medical oncology and internal medicine through the American Board of Internal Medicine (ABIM). The ABIM is a physician-led, non-profit, independent evaluation organization driven by doctors who want to achieve higher standards for better care in a rapidly changing world.

Licensed to practice medicine in Florida, Dr. Grajales-Cruz can be found on staff at Memorial Hospital West and Memorial Regional Hospital.

Hematology is the branch of medicine concerned with the study of the cause, prognosis, treatment, and prevention of diseases related to blood. Oncology is a branch of medicine that deals with the prevention, diagnosis, and treatment of cancer. A hematologist-oncologist is a physician who specializes in the diagnosis, treatment, or prevention of blood diseases and cancers such as iron-deficiency anemia, hemophilia, sickle-cell disease, leukemia, and lymphoma.

On a more personal note, Dr. Grajales-Cruz is fluent in English, Spanish, and French.
