

Bradscoin Launches Crypto token

West bengal, kolkata, Oct 31, 2021 (Issuewire.com) - BRADS International Pvt. Ltd. is thrilled to announce the launch of its exclusive utility token, BRADSCoin (BDC). This virtual currency is available at bradcoin.com, the official website powered by us for you to invest and acquire this crypto asset. The selling price of this cryptocurrency is 6 USD per BDC token. The total tokens available for sale progress are valued at 870000000 USD, and the total amount raised is 25034832 USD.

This crypto asset is based on the ERC-20 standard, used for issuing and creating smart contracts in the

Ethereum blockchain. It is a decentralized asset existing independently in a digital ledger, or blockchain. This utility token can be used in platforms that accept cryptocurrency as a mode of payment, in exchange for products and services. BRADS International Pvt. Ltd. is a leading company in the digital marketplace, recognized globally for its simple trading parameters. It allows users to convert their fiat currencies into crypto assets and lets them exchange value by easy means across several utility portals. Our goal is to create a single ecosystem, where users can avail themselves of facilities for shopping, trading, and gaming under a single roof.

What are you waiting for, visit our website bradscoin.com and click on 'Get BDC' to avail the benefits provided by BRADS?
