

IKIO Founder Mr. Ekamdeep Singh Wins Bronze At The 2021 CEO World Awards For Responding Remarkably To The COVID Crisis

A proud moment for IKIO as our Founder & CEO Mr. Ekamdeep Singh receives recognition for efficiently leading the company through the COVID-19 Pandemic at the prestigious Globee® Awards. He has received the award under the CEO World Awards category.

Indiana, Indianapolis, Oct 27, 2021 ([Issuewire.com](https://www.issuewire.com)) - The renowned Globee® Awards has finally announced the winners for their 9th Annual CEO World Awards. **IKIO Founder and CEO — Mr. Ekamdeep Singh — received Bronze for excellently strategizing and leading the company through the Pandemic** and helping his team make a stronger comeback despite the difficult market situation.

With Ekamdeep Singh's supportive guidance and the entire team's collaborative efforts, IKIO managed to not only sustain during the tough times but also turn such a monumental setback into a huge growth opportunity.

In the past two years, the company has introduced several new innovative products, with one being a **top-grade UV Disinfection LED series** under their new brand — **Axenic UV**. Having healthy financial KPIs, the company's **expected growth in 2021 is about 300%**, an impressive number to take note of.

IKIO started as a small garage-based start-up, and slowly flourished into what it is today — a leading LED brand in America. The Pandemic was definitely unfortunate but did little to stray Mr. Singh and his motivated team from their goal to provide path-breaking LED lighting solutions to the customers.

“Despite it being over a year and a half, the world is still fighting and recovering from the crisis this Pandemic has left us in. The impact is visible in the lighting industry as well. However, we at IKIO managed to overcome this difficult phase through the collective efforts of our team,” said Mr. Singh. “My team and I feel extremely honored to have received recognition from the Globee® Awards for the steps we have taken as a company during the Pandemic. It makes us happy that we have been able to set an example for others in the industry through our ways of approaching both - challenges and opportunities.”

The Globee® Awards are the world’s premier business awards organized since 2003 that recognize the accomplishments and contributions of companies, business executives, and professionals worldwide. Moreover, the event provides a platform for industry leaders to learn from their peers how they can face challenges and grab opportunities.

The awards are given to winners after being gauged by a worldwide judging panel of executives and professionals representing a wide spectrum of industries. The entries go through a rigorous, ethical, and transparent process to ensure that only the nominees worthy of the awards receive them.
