The Climate-Science Backed Solution to Rapidly Reverse Climate Change at 80% Less Cost

Love  
Is The Only  
Solution

**England, London, Oct 30, 2021 ([IssueWire.com](http://IssueWire.com)) - “Love is the Only Solution” presented by British Actor Peter Egan The Climate-Science Backed Solution to Rapidly Reverse Climate Change at 80% Less Cost**

Conference Date/Time: 4 November 2021 at 4pm GMT

Where: Press Conference in D. Lomond Suite, Blue Zone, COP26, Glasgow, United Kingdom

British Actor Peter Egan, of Downtown Abbey fame, invites climate journalists to join him as he presents science that is the fastest way to reverse climate change and do it affordably. The concept is a call out to every single human being on the planet to embrace.

Mr. Egan will reveal multiple solutions outlined in a new free e-book “Love is the Only Solution” written by an international best-selling author, solutions that are not well discussed yet are simply perfect.

For example, 1) if we increase our love towards animals, we become vegan, which reduces the cost of mitigating climate change by over 80% (reference Climate Benefits of changing diet) and 2) it also increases the speed at which we can reverse climate change (due to shorter-lived climate forcers).

In the book, the climate visionary author shares a letter she wrote to all global leaders:

*“Destructive signs are evident everywhere. WARNING SIGNS ARE AMBER and obvious around our world! Our climate is accelerating. Animal raising, fish, egg, milk industries, etc., anything to do with animals, are the worst producers of lethal methane gas which heats up our planet. So, stopping these brutal, murderous businesses is the fastest way to cool our Earth. You have the power to stop all this. You have the privilege to IMPLEMENT VEGAN LAW, NO MORE ANIMAL RELATED SUFFERING BUSINESSES. Zero pain, agony for all beings, humans, and animals. Because kindness will beget kindness, and compassion will beget compassion.”*

Through Love in Action for the animals, love for nature, each other, our families and even our enemies, we can create an Eden on Earth. The energy of LOVE will have a protective effect that will not only heal the planet but also elevate its inhabitants to a higher state of consciousness. The author goes on to urge us:

*“We have to be the source of inspiration, of nobility and love, especially if we have been shown how, by others’ example. If we have love, all goodwill come our way.*

*We can start to love now, today, and continue tomorrow into the future.*

*Love yourself, love your family, love your neighbors, love all around us.*

*Without love in our hearts, we are almost nothing, just a burden to ourselves, to loved ones, and society. Love is not a word on our lips, love must be our feeling inside, and action translated outside.*

*Love the animals, we’ll be vegan. Love the Earth, we’ll go green. Love the world, save the planet.”*

Climate change has been called “a planetary emergency”. However, with the unified effort of all humans, there is a solution. Love is the ONLY Solution. “*Make THE VEGAN LAW to save our world.*”
