Ludo League Game Tricks to Win

Today many people ask that what are the tricks to win Ludo game, you have to follow the strategy how the opponent is playing the game.

- In the beginning, you should first open your dice, so that you can cut your opponent's piece at the right time. And try to take your piece to your home first of all.
- Place your pawns in safe coloured boxes where the opponent cannot cut your pawns. And one thing which has been kept in mind by the players is that you should not keep your pawns in one place for too long time.
- In the beginning, we move our two pawns towards the home and keep the other two pawns in the start point to cut the piece of the opponent.
- We want to chase the opponent's pawns as much as possible if we want to win the game.
- Sometimes we have to take a risk to go ahead of the opponent's dice. You cannot win Ludo's game without taking any risk. Because safe games reduce your chances of winning the game.

- Do not play with same moves with every player in Ludo League.
