# The future of learning is here

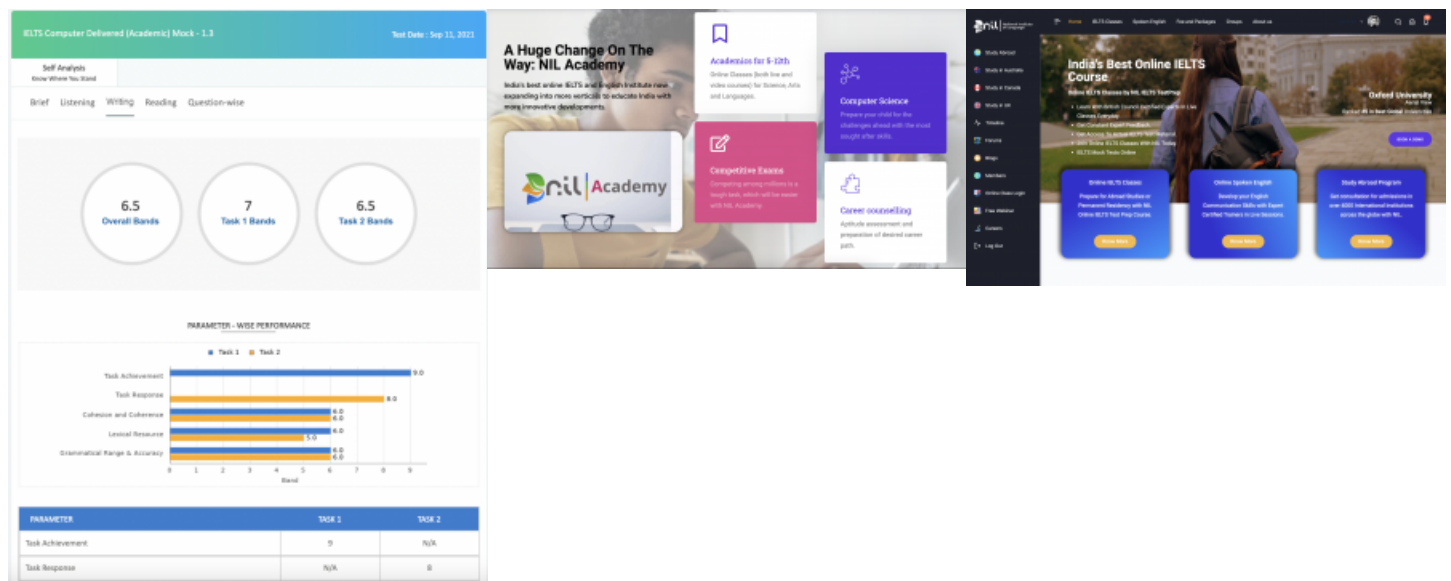

**Uttar Pradesh, Lucknow, Oct 30, 2021** ([Issuewire.com](http://Issuewire.com)) - National Institute of Language (A unit of NIL Edutech Private Limited), a leading online education platform providing [Online IELTS preparation Classes](#) for people who want to move abroad for higher education, is expanding its services in academics. The director of the parent company NIL Edutech (P) Limited Mr. Ankur Bharat has announced the new venture on Saturday, 30 October.

The organisation has been training students for International English tests such as **IELTS, TOEFL, and PTE** as well as providing [Online English Communication Classes](#) as a vocational course which also includes Personality Development Modules. In the month of August, this year NIL had launched Android and iOS applications to facilitate learning with a community-based system. According to Mr. Bharat, this was to lay the foundation for the next big undertaking in the academic domain.

*"BYJU's and Vedantu have been the leading players in academic training for quite some time while India is moving towards a new age of online education and NIL is expecting to mark a new beginning with an emphasis on Live Online Classes for better interaction with the teachers along with full Audio/Visual classes replicating the experience of a physical classroom.",* says Mr. Bharat

National Institute of Language has been laying the groundwork for the last 2 years to implement the latest technologies in order to achieve its goal to become a leading player in the domain. NIL already has the world's first artificial intelligence-powered IELTS testing system and collaborative learning platform where students and trainers can share ideas with each other and build their own unique educational network through the website or the mobile application. Last year NIL also built a network of over 4000 International Universities to provide assistance in **Abroad Studies**.
