

Pedestal Support System Market Offers Smart and Cost-Effective Building Solutions to Modern Infrastructure

The Global Pedestal Support System Market is projected to grow at a CAGR of 12.3% over the next six years

Global Pedestal Support System Market

2021-2027

United Kingdom, London, Oct 22, 2021 ([IssueWire.com](https://www.issuewire.com)) - The global pedestal support system market is likely to ascend at a CAGR of 12.3% over the forecast period (2021-2027) according to QuantAlign Research. The demand for a pedestal support systems is expected to reach USD **410.0** Million by 2027. The growth of the pedestal support system market is primarily attributed to its acceptance as a smart, innovative and cost-effective solution to modern construction.

External elevated and ventilated balconies, flat roofs, and terraces may all benefit from the pedestal framework. Adjustable pedestals keep water off the paving surface and provide easy access to the ground below. Furthermore, with the outbreak of COVID-19, the construction industry is reconsidering a systems approach to engineering design and construction leading to higher adoption of new smart solutions.

During the forecast period, demand growth for pedestal support systems will be supported by increasing demand from the construction industry coupled with rising applications in high rise commercial, and residential buildings. While the use of adjustable pedestals for terrace construction is cutting-edge in modern construction, compatible roof pedestal systems for the installation of raised floors are still being improved.

Key insights:

- The paving application segment is expected to witness significant CAGR over the forecast period
- The commercial end-user segment dominated the market in 2020, while the residential segment is also expected to exhibit significant CAGR over the coming years
- Europe is expected to generate higher demand for the pedestal support system market, while Asia-Pacific along with the MEA region is expected to offer a wide array of opportunities and would be a key market over the forecast period

Key players operating in the market include: DD GROUP, Caro Group, Linder, The London Tile Co., Buzon UK Limited, Dutco Tennant LLC Kinley Systems Limited, Marshalls, Wallbarn Ltd., Pedestal PRO, LLC, Tile Mountain Ltd, Elevated Deck Systems, Castle Composites Ltd, Sky Deck USA, Jiangxi Taurus Technology Co., Ltd., Keksia, BISON Innovative Products., Eterno Ivica S.r.l.; among others.

Key Questions Answered in the report:

- What is the current total market consumption, and projected revenue for the global pedestal support system market from 2020 to 2027?
- Who are the major players in the Global pedestal support system market?
- What shares do the major regional markets occupy?
- On what basis is the market segmented?
- How has the Global market for pedestal support systems performed, and what are its key drivers?
- What would be the influence of the emerging trends in the Global pedestal support system

industry?

- What is the degree of competition in the Global pedestal support system market?
- What are the key strategies adopted by the players operating in the Global pedestal support system market?
- What has been the impact of COVID-19 on the entire supply chain of the Global pedestal support system market?

The report examines and provides an extensive overview of the Global pedestal support system market. The report identifies key industry trends and covers the pedestal support system market landscape. The report builds a short- and long-term forecast model covering the period between 2017 to 2027.

About Us

QuantAlign Research is a market research and consulting company that provides high-quality research insights, which help our clients in making well-informed decisions.

Our research team has extensive experience in market research and consulting services. Our analysts keep close tabs on market trends to develop strategies for our clients to stay ahead and adapt to changing market conditions.

QuantAlign Research provides syndicated and customized research reports in various industry verticals, which include chemical & material, automotive & transportation, energy & power, information and communication, electrical & electronics, healthcare & biotechnology, and FMCG.
