

John H. McVicker, MD, FACS, FAANS, a Neurosurgeon with Memorial Hospital at UHealth

Get to know Neurosurgeon Dr. John H. McVicker, who serves patients in Colorado Springs, Colorado.

New York, New York City, Nov 2, 2021 ([IssueWire.com](https://www.issuewire.com)) - Dr. McVicker is a board-certified neurosurgeon and Director of Neurosciences at Memorial Hospital at UCHealth in Colorado Springs, Colorado. He is recognized for his instrumental role in assisting Memorial Hospital to develop the full repertoire of neuroscience capability. An expert in the diagnosis and treatment of trigeminal neuralgia, Dr. McVicker has vast experience in neurotrauma and neurocritical care, functional and stereotactic neurosurgery, pituitary surgery, and cervical and lumbar spine surgery, principally for the treatment of trauma to the spine.

Dr. McVicker practices at UCHealth Brain and Spine Clinic - Colorado Springs in Colorado Springs, Colorado, and UCHealth Brain and Spine Tumor Multidisciplinary Clinic - Memorial Hospital Central in Colorado Springs, Colorado.

Dr. McVicker attended the University of Colorado School of Medicine and, following his graduation in 1981, he pursued his internship at the University of Florida College of Medicine (1981 - 1982) He then joined the Shands Teaching Hospital at the University of Florida College of Medicine, where he completed his neurosurgery residency in 1987.

Subsequent to his education, the doctor attained board certification in neurosurgery and neurocritical care through the American Board of Neurological Surgery. The broad aim of the American Board of Neurological Surgery is to encourage the study, improve the practice, elevate the standards, and advance the science of neurological surgery, and thereby serve the cause of public health.

Neurosurgery or neurological surgery, known in common parlance as brain surgery, is the medical specialty concerned with the prevention, diagnosis, surgical treatment, and rehabilitation of disorders that affect any portion of the nervous system including the brain, spinal cord, central and peripheral nervous system, and cerebrovascular system.

Dr. McVicker's research interests cover neurocritical care, neurotrauma, and surgery for movement disorders such as Parkinson's disease and essential tremor. He is a Fellow of the American College of Surgeons as well as a Fellow of the American Association of Neurological Surgeons (FAANS). Dr. McVicker is also Vice President of the Western Neurosurgical and a member of the Congress of Neurological Surgeons.
