

# **Onkar Gandhe - Next Generation Cyber Security Expert**

**Nashik, Maharashtra Nov 7, 2021 ([IssueWire.com](http://IssueWire.com))** - Onkar Gandhe is a well-known figure in the field of cyber security. [Onkar Gandhe](#) is the founder of three IT startups. With the establishment of Cyber Sakshar in Nashik, Maharashtra, Onkar Gandhe is paving the way for youngsters to fulfill their goals in the field of Cyber Security.

The internet has been one of the most significant advances in human history, yet the way technology has completely enmeshed thousands of people throughout the world tells us much about the individual's capacity to learn knowledge in such modern modes of living. Working for over 7 years with the desire to help a wide number of people, particularly those who are impoverished in the field of cyber security, is the goal of the founder of the recognised Cyber Sakshar.

Onkar Gandhe is a Cyber Security Expert, Branding Expert, Digital and Social Media Marketing Consultant, Digital Growth Hacker, Trainer, Author, Writer, Social Worker, Professor, Keynote Speaker, and a magnanimous Entrepreneur.

Beginning his career in cyber security in 2014, his rapid learning talents and foresight added many feathers to his hat, and he climbed stages of overall success consulting with various people and corporations.

Onkar Gandhe has completed his Batechores and Master's Degree in Computer Science from the University of Pune. He has completed more than 100 National and International Certifications in the field of IT and Cyber Security.

While pursuing his Master's Degree, Onkar started his first IT company, named [ON Web Technologies](#). At an early age, Onkar learned the fundamentals of cyber security and discovered a passion for teaching others down the same road. Cybercrimes are also increasing in this world of rapid growth. To make people aware of these, Onkar Gandhe founded a new company, [Cyber Sakshar](#).

Cyber Sakshar helps students, individuals, professionals, and elderly people with Cyber Security Awareness. Onkar has delivered more than 1000 seminars, workshops, and programmes in various formats to date. He used to help some government agencies and police in some cybercrime cases. A magazine on Cyber Security is published by them every month. Onkar is Chief Editor of the magazine. He received the 'Best e-Magazine Award' from Sahitya Parishad Pune, last year.

He used his daily activities to help a bigger community via the empowering and holistic growth focused by [BeeThrive Digital LLP](#), a one-of-a-kind endeavour to boost the position of learners to provide solid employment.

With the establishment of the company in Nashik, Maharashtra, Onkar Gandhe is paving the way for millennials to realise their goals in the digital world.

"I have committed myself to the goal of driving such changes that will give birth to individuals who lead by example; through our company, we envision India to be a hub for Cyber Security education and digitally sound entrepreneurs and discourse drivers. We have trained hundreds of students in this direction and we are getting closer to the same with each session," Onkar says of his motivation to

continue the endeavor.

Onkar has aimed to make India a cyber-safe country. He is planning to start Cyber Sakshar Clubs in every school and college in India. He has started this with Maharashtra schools and colleges. With customised lessons for students of all backgrounds, delivering cyber security seminars, courses, and giving numerous presentations at various organisations, Onkar is encouraging people to build a fortune out of their lives.
