

Solana Monkey Holidays - A Festive Christmas NFT

The first diversity-based NFT collection of Solana Monkey Business (SMB)

Hong Kong, Hong Kong S.A.R. Nov 17, 2021 ([IssueWire.com](https://www.issuewire.com)) - Solana Monkey Holidays - A Festive Christmas Derivative

Solana Monkey Holidays: Christmas is the first diversity-based derivative collection of Solana Monkey Business (SMB) and the only one that contains GIFs. 4,888 generated festive monkeys will be airdropped to SMB holders and the remaining will be sold at 0.5 SOL on 25 Nov 6 AM UTC at holidaydao.com. All holders will be part of the HolidayDAO, where future DAO tokens will be rewarded to holders and active members.

The Rise Of Solana And NFTs

Solana has seen a remarkable pump to glory over the last year, appreciating from less than \$2 USD to more than \$240 USD today. This meteoric rise, along with its low gas fees, fast transactions, scalability and security, led new followers of Solana into what is now one of the fastest-growing NFT communities.

Two NFT projects stand out as clear titans in the Solana ecosystem: Degenerate Apes and Solana Monkey Business (SMB). All together, both collections combined have a mind-boggling 1.65 million \$SOL (\$396 million USD) in total sales since their launches in mid August.

SMB has particularly gained traction through the creation of a community-driven NFT DAO (decentralised autonomous organization) called MonkeDAO. By holding an SMB, members are invited to join a community on Discord where everyone can vote, receive airdrops and join discussions in their vast range of channels. This has caused an influx of other derivatives to create collections in order to raise capital for creating their own DAOs.

Solana Monkey Holidays

Solana Monkey Holidays is no ordinary derivative collection. As the first diversity centric derivative of SMB, the team behind the collection has created brand new and unique attributes, whilst keeping the original SMB base the Solana community has come to adore.

The collection will feature 100 GIFs, bringing a totally new aspect to the SMB world and will also be sending proceeds to the MonkeDAO, as well as the upcoming HolidayDAO.

A percentage of proceeds are also being dedicated to a charity, which will be the HolidayDAO's first order of business once the collection is released. Members of the DAO will be able to choose a charity of their choice from a shortlist of charities helping people in need during the Christmas time.

The HolidayDAO

Upon the successful launch of Solana Monkey Holidays, a DAO called the 'HolidayDAO' will be created and established. The purpose of this community is to connect the strongest and greatest communities across the space, as well as to celebrate the success of NFT projects making a positive impact on the NFT ecosystem.

Over time, the HolidayDAO will continue to grow its community and treasury by creating holiday collection derivatives of projects making an impact, both large and small, all while giving back to the original collections so that they can increase their efforts.

Apart from collections, the HolidayDAO will strive to release a DAO token, donate to charities around the world, launch a dedicated marketplace, create online merchandise and even build its own metaverse. With the NFT community adapting and changing at rapid rates, future decisions will be changed, decided and voted on by all of the HolidayDAO members.

About Solana Monkey Holidays

Solana Monkey Holidays is a collection of 4888 NFTs inspired by the SMB collection. Each one has completely unique assets specifically made for Christmas. As the first one of many, SMH aspires to make multiple collections to celebrate Solana Monkey Business and to give back to their community.
