Bayonne, Nov 8, 2021 (IssueWire.com) - Starting with the background vocal tone and the catchy musical melody the song ‘**Capo de Capo**’ is a perfect music production from **Wally Sparx**. The most important aspect of this artist is that he composes this song with a continuous repetitive musical flow. Furthermore, the artist has used a high and low tempo in rapping throughout the music. The song has been uplifted because of the features of Triple Og in this music. The music has a cut-to-cut vocal and musical instrumentalization, which makes it swaggy and worthwhile for the listeners. This rising star has already catered to a huge achievement for an emerging artist.

Being self-made and independent hip-hop and rap artist, he always put his own style within the tracks. Moreover, he advises independent artists to stay focused and listen to no one to keep their creativity intact and unique. Therefore, with his own composing style he has successfully achieved to attract most of the listeners to his music. **Wally Sparx** uses a reverb-heavy voice within his latest song ‘**Capo de Capo**’ for making this song more radical in front of the audience. It is expected that new numbers from this artist can be observed from this artist in the near future.

However, the artist has said that he will drop singles until his new album rolls out in the market. His style of music is that he does not write vibe with the beat pattern within his music.
