

# The World's Best Trading Platform - Coinshape

Coinshape Leading Cryptocurrency Exchange

**Cleveland, Aberdeen Nov 29, 2021 ([IssueWire.com](https://www.issuewire.com))** - The famous trading exchange **Coinshape** has applied new technology to improve what are expected in the interface and to make trading more easy and satisfactory to users in the nearest future.

The exchange coin shape with additional new team of professionals come into play has turned out that the additional new management has already started to discuss the prospects for the market development and is doing everything possible to make *blockchain and financial management* clear to everyone and trader using the exchange.

Coinshape have reconsidered the vision of the cryptocurrency market in the first place and all modern products have to be easy to use, fast, intuitive, and as comfortable for users as possible, as well as flexible, too. We offer something fundamentally new for the industry. Our product is designed to provide the *fastest and most comfortable exchange of cryptocurrencies*, simple and effortless income, along with clear and understandable financial management. This is going to be a true breakthrough products of coin shape which the cryptocurrency market has never seen such a thing before.

Above all, It has improved the security and convenience of the platform for their clients. Coin shape has developed a field of decentralized finance (DeFi) that has become popular in 2020. DeFi caused the

most popular DeFi-token YFI to rise in price by 128,000% and set an all-time high at the amount of \$41

We are decided to pay attention to reducing fees and speeding up the passage of transactions as much as possible. For this, it is necessary to optimize smart contracts. Coin shape company aims at re-architecting the entire system using Layer-2 to improve performance.

Also, there were frequent complaints from traders about significant losses when exchanging cryptocurrencies with high liquidity. [Coinshape](#) is going to implement a system where traders will be able to set an acceptable threshold for changing the price of an asset on their own. This will significantly reduce future losses.

Why coinshape is going to become #1 *Crypto Exchange* in the coming year the mission of the coinshape exchange is to allow easy access to secure and profitable DeFi and CeFi products while using the capacity and infrastructure of the existing CEX. This is going to be the DeFi marketplace for new cryptocurrency investors who are looking for dependable tools for their business opportunities.

We offers the following efficient services and expected new products.

Coinshape is Trading with a wide range of features, among which are margin, spot trading, codes, as well as trading competitions. The benefits are numerous with promotions, affordable fees, and rapid order execution, to name a few.
