

11th Edition of International Conference on Catalysis, Chemical Engineering and Technology

After organizing 10 highly successful conferences on Catalysis and Chemical Engineering, Magnus Group proudly announces its “11th edition of International Conference on Catalysis, Chemical Engineering and Technology” (CCT 2022) slated during May 2022

The banner features the Magnus Group logo (mg magnus Group) in the top left. The main text reads: "11TH EDITION OF INTERNATIONAL CONFERENCE ON CATALYSIS, CHEMICAL ENGINEERING AND TECHNOLOGY". To the right of the text are icons for a calendar, the dates "16-17 May, 2022", a location pin, and "Tokyo Japan". On the right side, there is a circular image of a traditional Japanese wooden building. The text "CCT 2022" is in the top right corner. At the bottom left, a globe icon is followed by the URL "https://catalysis-conferences.com".

Chofu, Tokyo Dec 6, 2021 (Issuewire.com) - The congress will maintain its original theme ***“Exploring critical breakthroughs in Catalysis and chemical engineering.”***

CCT 2022 purpose is to establish a platform that bridges geographic boundaries between the experts and will take them further in their next step in research. [CCT 2022](#) brings together renowned academicians, chemists, engineers, catalysis experts, researchers, and scientists to share experiences on all aspects of [Chemical Engineering and Catalysis](#). It gives researchers, practitioners, and educators an interdisciplinary forum to present and discuss current discoveries, trends, and concerns, as well as practical problems and solutions for [Chemical and Technological Engineering](#). Hopefully, this meeting will bridge new collaborations with like-minded people. In addition to the conference's academic and professional pursuits. We hope you have valuable professional development at this summit.
