Los Angeles, California Dec 17, 2021 ([IssueWire.com](https://www.issuewire.com)) - Independent music producer and songwriter Brandon Pugh announced the official opening of 50 Shots Beats (<https://caloussoulsrecords.com>), launching with a large catalog of original compositions. 50 Shots Beats offers new music available for single-leasing download, as well as multiple continual-licensing agreement packages, up to and including exclusive rights. Premium memberships give musicians access to the newest compositions as they are posted, rapidly transforming 50 Shots Beats into a popular destination for musicians and record producers in search of chart-topping tunes. 50 Shots Beats only licenses professionally crafted music that is Music Modernization Act (MMA) compliant.

"I'm super-stoked to be launching – it's been a dream of mine for years," said Brandon Pugh. "The digital age created a whole host of new licensing issues that have only recently been addressed in law, especially with the MMA of 2017. Now though, artists, composers, and producers have the creative licensing they deserve for their art – allowing them to share that music with other artists for collaboration. And clients never have to worry about piracy here: 50 Shots Beats is fully MMA compliant. You can listen, purchase, download, and use – all worry-free. We've got you covered."
