History of **E-Writing**  
**Champs** in Content  
Industry

**New Delhi, Delhi Dec 30, 2021 ([Issuewire.com](http://Issuewire.com))** - This week's top attention-grabbing information- The magnificent history of E-writing champs, a content writing company. This content writing agency's journey will propel your mind.

- E-Writing Champs has completed 5 years in the content industry
- Google Assistant, Alexa, Siri are voice content writing services added to E-Writing champs company.
- The company handles student, business, and professional profiles.

This company was founded in 2015 with its head office in New Delhi. It was mainly formed to aid North India by giving [content writing services](#) to students willing to go abroad for further education. Then, some students asked for assistance in CV writing and personal statements. After that, the groundwork was laid for CV writing services and personal statements services. First and foremost, the company's work was for students' profiles, and they gradually gained hands-on experience and started building website content, SEO content, social media, and blog content for professional profiles. Not only student and professional profiles but also business profiles like article writing, copywriting, etc. are handled proficiently.

In the current scenario, this company has flourished in providing all sorts of content for various industries all over India. Also, it has marketing strategies for different companies. For 5 years, it has become technology-friendly providing its services in an online process.

Due to wireless and hands-free being in trend, voice searches have gained popularity in recent times. E-

writing champs have added Google Assistant, Alexa, and Siri-based content writing to its services. SEO trends are linked with current voice searches here. The company has the technical knowledge and provides innovative content for voice search optimized content.

"Our team of professional writers has done an excellent job in providing content for different niches be it for students, professional or business profiles", said Samarth Gupta, Owner of E-Writing Champs. "With Google Assistant, Alexa and Siri content writing services being added, E-Writing Champs promises to flourish more in the content industry", he added.

### **About:**

E-writing champs bestow people with many services. For students, there are admission essays, thesis writing, Resume/CV, and SEO writing services that aid in obtaining a good score in the colleges and stand out in job interviews. For business profiles, blog writing, copywriting, website content, and article writing services are provided. For professional profiles, CV writing, business plan writing services, business proposal, email writing, and scriptwriting services are given. It is one of the fastest expanding content writing service sites in India and helps clients with various services. The company has helped several people with their content requirements with an accurate approach. E-writing champs assistants are at customer's service for 24 hours and reach customers as early as possible.
