

New luxury adults only glamping retreat opens in North Wales

Gwynedd, Wales Dec 10, 2021 ([IssueWire.com](https://www.issuewire.com)) - Wales' latest luxury boutique glamping retreat opens near Pwllheli.

Offering luxury boutique glamping for adults only, the five traditional shepherd-style huts have been lovingly hand-crafted by co-owners Mark Barrow and Jonathan Gooders, both of whom have a background in fine art. The three-acre site features two gypsy huts, two poacher huts and a single shepherd's hut. Facing a lake and offering fabulous uninterrupted views towards the Yr Eifl mountains, the huts are all free-standing and use sustainable materials with double-glazed windows.

Named after the wife and daughters of Llywelyn the Great, each of the luxury huts has its own unique character and bespoke interior, with a private shower room, kitchen, and wood burner.

Co-owner Mark Barrow said: "We fell in love with this beautiful area during a trip to Portmeirion in 2017.

Two years later and we found our dream home in Y Ffor, just outside of Pwllheli, and knew it was the perfect location to build our luxury retreat".

"Of course, nobody could have predicted Covid-19, but one thing is for sure, we have all come to appreciate the value of a luxury staycation in our own beautiful country. Indeed, seeking authentic experiences and fully immersing in local culture and atmosphere has become a driving force for many discerning travellers, which is why we're developing a range of unique bespoke experience packages in conjunction with local artists, suppliers and craftspeople. Guests really will get a true flavour of the local area, whilst being able to relax, unwind and recharge in comfort".
