

One-Netbook Launched the AMD Version of Its Popular 8.4" Handheld Console ONEXPLAYER

The Ultimate AAA Gaming Experience Anytime, Anywhere

Shenzhen, Guangdong Sheng Dec 10, 2021 ([Issuewire.com](https://www.issuewire.com)) -

- *One-Netbook has launched the AMD Version of handheld console ONEXPLAYER, a high-performance handheld game console with AMD Ryzen7 5700U.*
- *The previous ONEXPLAYER Intel version has been a great success with positive feedbacks and raised over \$2,000,000 USD in its Indiegogo campaign.*
- *ONEXPLAYER is designed to provide players with a more flexible, portable, and space-free handheld PC gaming experience, with its cutting-edge hardware and ergonomic design*

Developed by One-Netbook Technology, a leading portable computing devices company, ONEXPLAYER aims to provide an immersive gaming experience for gamers anytime, anywhere.

Early this May, One-Netbook successfully launched the crowdfunding campaign for ONEXPLAYER's first Intel model on Indiegogo and raised over \$2,000,000 USD.

With positive feedback from thousands of backers, One-Netbook now brings the AMD version of

ONEXPLAYER that some users have longed for, equipped with AMD Ryzen7 5700U.

ONEXPLAYER AMD is now available on ONEXPLAYER's official website. The 5700U model is now accepting worldwide pre-orders with a price of \$1,199 and the 4800U model is available for shipping already at \$1,099.

Redefining the Handheld PC Console

ONEXPLAYER brings hardcore gamers unparalleled gaming entertainment with its powerful specs. At the heart of ONEXPLAYER is AMD's power core Ryzen 5700U, with this cutting-edge processor allowing the console to handle AAA titles with ease.

The console features an 8.4-inch Full-HD IPS Display with 2560 x 1600 resolution bringing impressive graphics and taking the handheld gaming experience to a level not experienced before. Meanwhile, the ONEXPLAYER's large screen with 358 ppi pixel density creates an immersive gaming experience.

The top-grade 3D speaker embedded in the front of the console means AAA soundtracks and sound effects are crisp and impactful.

Ultimate Gaming Experience

ONEXPLAYER is designed to set players free from gaming chairs and provide them with an uncompromised gaming experience anywhere they go.

The console features a bracket on the back, which provides firm and stable support for the console when needed. Full-screen games will have no black border in ONEXPLAYER and it is possible to see the screen from any angle.

ONEXPLAYER's linear triggers also bring players a completely different level of experience in shooting or sports games. Fast-action games such as *FIFA 21* benefit from the linear triggers, which could effectively help gamers up their gameplay.

Inspired by Xbox's ergonomically comfortable controllers, ONEXPLAYER is dedicated to matching and even exceeding the user experience on the controllers with the optimized position and arcs of buttons to prevent fingers from cramping after extended playtime. The arrangement and radian of ABXY keys are specifically designed to fit into gamers' palms.

ONEXPLAYER as a next-generation console delivers flawless gaming experiences to players under various scenarios.

ONEXPLAYER Spec Highlights:

- CPU: Ryzen 5700U, 8 cores, 16 threads, 8M Cache, 1.80 GHz Base Frequency, 4.30 GHz Max Turbo Frequency
