This app is simple and secure for a video call where another person cannot take a screenshot of your mobile screen. Here users can meet and make new friends and have a moment with them. Dartush video call is a [Free random video call](#) app where the users can make High-Quality video calls with anyone anywhere and also make group calls one by one.

All data is protected in our server and never shared user information with any third party. Only the profile information shared if you agree to make it public will be shown to other users. The private information you may reveal through conversations all over the world.

The app has a 24/7 moderation system as well! When you are making a video call it matches on your live random video chat, the screen will be blurred until his/her face is shown. If you meet someone who is behaving inappropriately, the user reports her/him and you will not be able to see their profiles or match with them anymore. We focus on building a private, safe and healthy community for young people without any inappropriate behaviors. So users don't have to worry about their own safety.

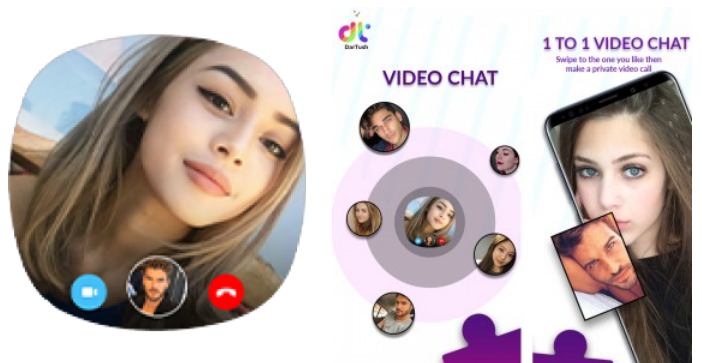

Prelax Infotech also develops Android and iPhone applications such as video calls, free live TV, caller name location, phone caller dial pad themes, and many more. Also develop web development, web designing, game development, SEO / ASO, digital marketing, Affiliate Marketing and more. To know more about [Prelax Infotech](#).

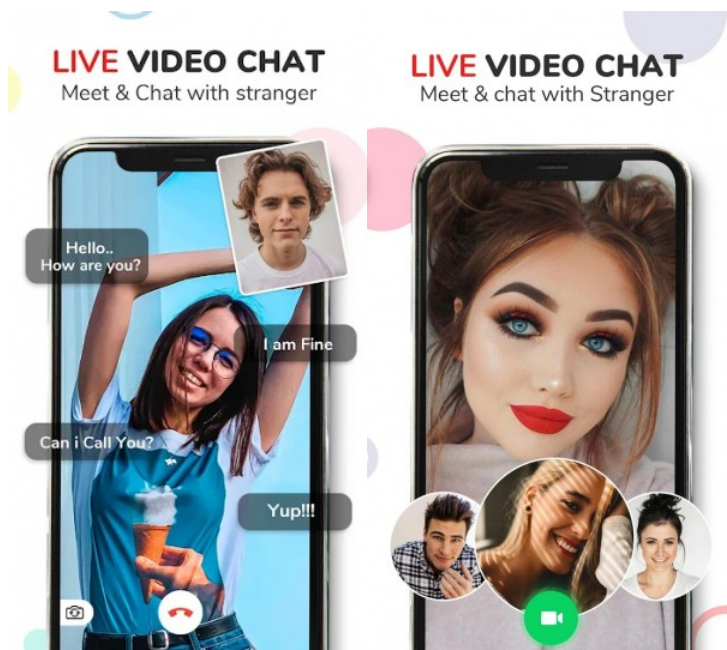

Make just a video call and meet new friends all over the world.
