

## Aman VPN Unlimited Proxy - Free VPN for Android and Windows

**Los Angeles, California Jan 20, 2022 ([IssueWire.com](https://www.issuewire.com))** - Aman is a company that started its journey in the United States in 2010 and is dedicated to providing security solutions and military-grade network solutions to different companies around the world. With the help of its dedicated team of professionals, the company provides global information security and privacy protection.

Aman has been focusing on business transformation since 2019. They formed a business team to provide personalized solutions and launched the Aman VPN family of products. AmanVPN is a free VPN service offered by the company. It was established to protect online internet users. Use cases are watching videos and movies, securing WiFi and protecting privacy, turbo-charging video streaming experiences, and more.

AmanVPN was established to protect online internet users. Melisa Marcus, Creative Director, said: "We at Aman are very concerned about the future of the internet. The main purpose of this AmanVPN is to have a truly open internet and protect citizens. We are privacy experts and never hide information from our users for better online security Sex and Anonymity".

VPN service supports [Android](#), [Windows](#), iOS, macOS systems. The company is also developing browser plugins, AppleTV, Linux, AndroidTV, and HarmonyOS.

Speaking of their product, the CEO said: "We want people everywhere to understand online privacy. Trust is an important factor for us. Since 2010, we have been doing business by catering to people's trust. Vision is to become the world's largest ad-popular VPN service provider".

Aman is committed to providing cybersecurity and privacy. Professionals have extensive experience in Internet technology and security. This expertise is used when developing VPN products for customers. The company takes online privacy very seriously. Customers are the company's top priority, and Aman wants to build lasting relationships with them. Therefore, they protect the safety, privacy, and freedom of their online customers with a completely free VPN service.
