

Keith A. Hopkins, MD, a Direct Primary Care Internist in Sacramento, CA

Get to know Dr. Keith A. Hopkins, serving patients in Sacramento, California.

New York City, New York Jan 31, 2022 ([Issuewire.com](https://www.issuewire.com)) - A top professional in the field of Internal Medicine, Dr. Hopkins is a provider who focuses on treating and teaching each of his patients throughout all of Sacramento.

Direct Primary Care allows patients an opportunity to get to know their doctors, and for their doctors to fully know them. Each patient in his panel has Dr. Hopkins' cellular number, email address and receives rapid responses to their questions, issues, or concerns. The whole team offers a patient-focused visit and provides a more positive health care experience. Dr. Hopkins calls his practice 'Trans-Ruptive' in that it disrupts and changes the way things have been, making medicine the way it should be and what we all deserve. Though Covid has changed the perception of medical providers, he continues to see patients by Tele-Medicine (which he has been doing since 2011) and in the office, where Covid Screening is also done.

Beginning his professional pursuits at the University of Illinois College of Medicine, Dr. Hopkins completed his residency in Internal Medicine at Yale University in 2006. He then went on to more specialized training in two different Fellowship programs in Nephrology (at the University of Wisconsin-Madison) and in Hypertension (at University of Chicago, under Dr. Geo. Bakris).

Internal medicine is the medical specialty that deals with the prevention, diagnosis, and treatment of adult diseases. Dr. Hopkins treats the full spectrum of medical issues but has consult level experience in High Blood Pressure, Renal Disease, Diabetes therapy, and non-Narcotic Pain Management. He is also well connected with other Specialists in Sacramento and can get patients seen in a timely manner. Physicians specializing in Internal Medicine are called Internists. In general, they work with their patients on the management and prevention of the common and complex by providing comprehensive care and promoting overall well-being; but it takes a special doctor to provide concierge level care on each visit, to always be available for patients 24/7.

Let Dr. Keith A. Hopkins, MD be **your** doctor.
