Orthodontics is a specialty of dentistry that deals with the diagnosis, prevention, and correction of malpositioned teeth and jaws. Orthodontists are responsible for identifying problems with the positioning of a patient's teeth and with their oral development. They utilize the most advanced procedures and equipment available to ensure that every patient achieves a healthy and beautiful smile.

A southern girl at heart, Dr. Smith enjoys spending time with family and friends, especially her beautiful daughter Kennedy. Together, they enjoy many outdoor activities including both skiing and water sports. Her parents were successful entrepreneurs, and they introduced her to the importance of community service at a young age.
