The New trending Stars that remixed the Island Boys hook over a Bobby Shmurda beat and went crazy!

Miami, Florida Jan 18, 2022 (Issuewire.com) - Recording artist **Phresh Kidd Ice**, formally known as **Anita Will**; Breaks the internet with *Hip Hop* artist **Shaun Peezy** with their brand new music video!

It's no surprise there is some new, undiscovered talent in Miami. What is quite impressive about these talented artist is that they don't seem to be defined by materialistic objects and gimmicks; If so I'm sure they would have worked extremely hard to stand in front of a nice sports car throwing money at some Instagram model; But clearly, these are not your *typical* rapper's and can we all agree its genuinely refreshing to see an eye-catching storyline unfold through a music video?

Phresh Kidd Ice and **Shaun Peezy** remixed the **Island Boys** chorus and actually nailed it, but what seems to be even more exciting is that they remixed the chorus over the hit rapper **Bobby Shmurda's** "No Time For Sleep" beat. **Phresh Kidd Ice** melodic rap flow along with **Shaun Peezy's** hard rap punch lines is literally a game-changer. This unique duo not only brought the **Island Boys** chorus to life in a song, but they also show us in their brand new music video what the island life displays through a variety of cultured *practices*.

This isn't just any music video you see; This music video is certainly is given short film vibes. In fact, the talented **Ms.Anita Will**, also known as the rapper **Phresh Kidd Ice**, states that she and **Shaun Peezy** are currently working on an entire project together, which will include a sequence of visuals that she is writing and directing. In their new official music video "Real Island S***!" The storyline begins when **Shaun Peezy** gets into an altercation at the store with an old rival from the streets, leading us into the most psychological/action plot twist.

After asking **Phresh Kidd Ice** about what seems to look like a voodoo doll in the visual, she smirks before taking a sip of her Cremas drink and then says "I wanted to display a storyline that portrayed not only the gun violence that happens in my city but also displays the spiritual violence that is often overlooked or thought to be taboo. I figured me and Shaun could truly execute the 2 sides of things." Again, she smirks and takes another sip of her drink.
