

Secure your door with a Delta smart lock.

Launch in india & review

Mumbai, Maharashtra Feb 27, 2022 (Issuewire.com) - Complementary to our modern and hectic lifestyles, the Delta A210 is the epitome of living smarter lives. Access is truly now at your fingertips, you'll never worry about forgotten or lost keys again.

Used in conjunction with the Delta mobile app, you can let guests in any time via time-sensitive PIN codes or Bluetooth keys without being near the lock and ensure that your home is secured after they leave.

Like all delta smart locks, the Mortise A210 works offline for enhanced reliability and security and is jam-packed with features that make life much more convenient!

Delta has put in countless hours in perfecting the fingerprint sensor. Designed to reduce the likelihood of tampering, the sensor is concealed within the front panel of the lock. It also keeps the aesthetics of looking slim and sleek to suit any decor.

Precision comes in the form of 2D capacitive-contact technology in the sensor. It features a 508 DPI spatial resolution that allows your finger to be oriented in any direction and still authenticate it.

Let's not forget that it has an image capture speed of up to 2 megapixels per second. This means you'll enter your home in just a matter of seconds!

Mobile app-enabled for greater convenience

With the DELTAHOME app, you have the flexibility to manage access to your property.

Grant access to your family and friends remotely via time-sensitive PIN codes and Bluetooth keys. With our unique PIN TECHNOLOGY, you can generate access at any time and at anywhere without the need to be near your DELTA A210.

Here's what you can do **remotely**:

- Generate time-sensitive PIN codes
- Generate time-sensitive Bluetooth keys
- Get notified of Bluetooth key activities
- Revoke Bluetooth key access

And here are more features you can access when you're **within Bluetooth range of the lock**:

- Create customised PIN codes
- View PIN code activity logs
- Check battery status
- Adjust lock volumes
- Revoke PIN code access.
