**New Delhi, Delhi Feb 6, 2022 ([Issuewire.com](http://Issuewire.com))** - Siren24 under Tree Apple Healthcare PVT Ltd, New Delhi, is a registered firm in 2016, working in the field of medical services to various hospitals. We have launched our app Siren24 through which a patient can book an ambulance directly and reach the nearest hospital in a single click. We are very delighted to have you as our partner hospital. We can direct patients to your hospitals directly by using our app

A Siren24 ambulance booking mobile app offers great benefits to patients as-

Patients can now book an ambulance for an emergency as well as for non-emergency services.

You can locate the nearest available ambulance and request the same.

Instantly get the information & contact details of the driver.

Live track the ambulance with an estimated time to reach the hospital.

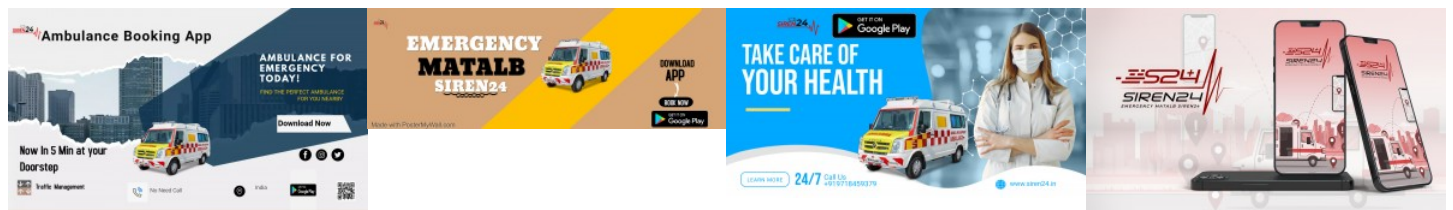

Offer all sorts of first aid inside the ambulance so that the patient becomes stable till he reaches the hospital.

In an effort to provide people with a faster and more reliable ambulance service, here is India's first app that claims to provide one-touch access to emergency medical services.

siren24 app selects the user's current location and sends an ambulance from the closest ambulance operator or the closest available ambulance to the patient's location in 10-15 minutes, the company said in a statement.

"It's as easy as booking an ambulance on your phone. With this siren24 app, you can get your specialized ambulance in minutes,"

The Siren24 app, designed for patient transport, basic life support (BLS), advanced life support (ALS), and mortuary services, also offers the flexibility to choose your preferred hospital.
