

# Best TMT Bar Manufacturing Company in Kolkata, West Bengal.

TMT Dealers Of Concast Maxx in Kolkata, West Bengal

**kolkata, West bengal Mar 24, 2022 ([Issuewire.com](http://Issuewire.com))** - In the construction and real estate industry, TMT bars or Thermo Mechanically Treated steel bars are the backbones of any structure because they provide strength, durability, and longevity. Builders or constructors swear by these bars to win the trust of clients and customers. Hence, it is crucial to associate and invest in a genuine and trusted TMT bar manufacturing company in Kolkata, such as [Concast Maxx](#), committed to delivering the best and a vast range of products in the industry.

## Concast Maxx: Impacting Lives

A trusted name in the field of TMT bars in Eastern India, Concast Maxx is an ISO 9001:2000 certified company that produces 10,000 MT high-grade & world-class iron castings and 1.5 MT of international standard steel every year.

The company believes in a 'no compromise in quality' policy and is working to impact lives by building strong and sustainable homes and infrastructure.

## TMT Dealers: Connecting customers

An efficient supply chain involves distribution through many sources; dealers are one such source. They directly link distributors and customers, thus building a strong bridge between the manufacturers and customers.

Concast Maxx, the leading **TMT bar manufacturing company in Kolkata**, has a broad reach through dealers and distributors. Whether you are a builder working on a multi-million project or an individual building your house, you can easily avail [top class TMT bars](#) through our dealers that spread across 12 districts of West Bengal.

### **Types of TMT bars:**

The [dealers](#) can provide you with various grades of high-quality and reliable reinforcement bars, such as Fe500, Fe500D, Fe550, Fe550D, Fe600, etc. Similarly, you can also avail other related Concast products such as TMT rings through these certified dealers.

These TMT bars are:

- Highly tensile
- Durable
- Weldable
- Corrosion-resistant
- Thermal-resistant
- Flexible or bendable
- Seismic-resistant
