

How Lohre Farms Desi Cow A2 Milk is healthy and nutrition rich

Just one protein differentiates A2 milk from "conventional" dairy milk

Hyderabad, Telangana Mar 26, 2022 (Issuewire.com) - For those who have trouble digesting milk, an alternative option could make it easier on their stomachs. Lohre Farms Desi Cow A2 milk has been in the market for quite some time now, but the distribution was limited.

Situated in the Southern Part of India, Lohre Farms have Desi Cow breeds that feed on Naturally Grown Fodder and produce 100% Fresh and Pure Milk.

With a mission to contribute to the well-being of society, Lohre Farms intends to bring about a revolution in the dairy industry and Desi cow breeding.

The prime goal is to ensure seamless delivery of natural and healthy products to the customers from the farms of Hyderabad and to provide cows with healthy fodder.

A2 milk contains A2 Beta Caesin Protein and helps in building strong bones. Lohre Farms A2 Milk has an excellent source of calcium that helps in building strong bones in both, children and adults. By regular consumption, you can ensure healthy bones for a lifetime.

If you're not a big milk drinker, you can even add this milk to your cereals, oats, smoothies, and baked goodies.

Lohre Farms A2 Milk also contains a significant amount of omega-3 fatty acids. These are polyunsaturated fats that your body needs in order to function well. The consumption of omega-3 fatty acids has been linked to lower triglyceride levels, reducing the risk of heart disease or stroke.
