

Kathryn Shipley Announces First Album!

Kathryn Shipley's inaugural album "If These Boots Could Talk" is set to release on April 8, 2022, with Cavalla Records.

Nashville, Tennessee Mar 28, 2022 (Issuewire.com) - Kathryn Shipley (Kship Music) will be releasing her first full album consisting of seven original songs. Shipley has released a few singles along the way as a preview of this upcoming album. This album will give listeners its fill of the incredible music you have known and fell in love with along with a whole new side of Shipley that we have not seen yet.

Shipleigh explains, “Each song placed on this album came from direct prayer, two songs are prior releases *You Above All* and *Life is Good* that really rounded everything out. I appreciate the amazing Songwriters that pitched to me. The number of song pitches to me was phenomenal, and it was extremely hard to make sure each song really fit and surrounded the name of my album *If These Boots Could Talk*, it worked! One thing that stood out to me repeatedly was a quote from Neal Maxwell, and he said “We should certainly count our blessings, but we should also make our Blessings count” I believe this to be true for me with my music, so many Blessings, and I think I have made them count. I love inspiring people and showing them, to love what you do, and you will not fail, it may not be what others want it to be, but you gave it your best, and at the end of the day, with God as your driver, which is all that matters. I hope each one of you enjoys this album. Thank you to my production team Quentin Stephenson for some of my vocal recordings and my amazing producer in Nashville Daniel Dennis, my amazing background vocalist Angela Hurt, and my label at Cavalla Records, if I only do one album in this lifetime this holds a special place in my heart.”

On Shipleigh’s soon-to-be-released album fans can expect messages of love in *You Above All* and relationships in *Onto Somethin’* featuring Greg Roberts providing a full-immersive, prospective-bringing, real-life look at the full spectrum of the distinct types of love and its complexity.

Shipleigh’s album *If These Boots Could Talk* will release on April 8, 2022, by Cavalla Records to all online outlets. The album will then be released in hard copy following its release date.
