Join the Mafia family and secure your voice in the direction of the project (full DAO project). Once round

one is completed, we will be launching the second round of sales at a slightly higher price so we can develop the P2E game and the other great utilities this project holds (each round of sales will be 1,000 NFTs & the price will be increased every round, giving early adopters the chance to get in at the lowest point).

Be part of the [Secret Society](#), once you are an NFT holder you will be able to access the Private Holder Chat on discord and decide, a full hierarchy of members will be created with different ranks and positions. Our land in the Metaverse is also waiting for us to develop, your NFT will be your character all across the Metaverse as well as in the P2E game. The P2E game will have its own in-game crypto currency integrated that will open up many options for your personal expansion. Once you join the family you will also be part of the Royalty wallet that allows you to get a portion of the Royalties collected from the sales of the NFTs.
