

Interview with Artist and Entrepreneur Ibrahim Raed

Baghdad, Iraq Apr 27, 2022 ([IssueWire.com](https://www.issuewire.com)) - Meet an Iraqi musical artist and entrepreneur Ibrahim Raed.

What are the biggest challenges you face as an up-and-coming artist in the digital age?

To be heard amongst the millions.

It's tough. I mean there are thousands of songs coming out a day, and many incredible songs from so

many great artists.

But that's also what makes it so beautiful, being who you are and authentic will set you apart.

What's the best music recording experience you've ever had?

I have to say shooting "Ep BYN" in my room.
It was my first time there and it was very beautiful.
Everything about it is breathtaking.

Who is your dream piece of the piece by piece product?

I love working with Dr. Dre! Are there any words that can describe how insanely talented he is! Yes, this would be a dream!

Do you have some insights on running a smooth live show?

I would say don't stress and just enjoy every minute of it.
Sleep and eat right always and warm up so you're ready to kill it!

Give us some pointers on music work while traveling / on tour, please.

I always travel with a mic so I'll be recording everywhere. I think it's important to always stay creative and just enjoy it.

You never know when that crazy idea comes along and you got to jump on it when it's hot!

What's next for Ibrahim Raed?

Well, you have to keep in touch to find out haha.

I'm going to release a lot of music and can't wait for the world to hear it.

I want to be an artist that I didn't create.

I am a strong Middle Eastern Iraqi and I am proud of that.

If you believe in something great you can achieve it. Everyone's journey is different and that's what makes it special.

Where your fans should stream or listen to your music?

My music is available on all digital music streaming and downloading platforms like [Spotify](#), [Apple Music](#), [Deezer](#), [Boomplay](#), and [Tidal](#).
